Training for Ginger Producers and Processors

Title	Organiser	Course Description	Course Details
Organic agriculture training	Sustainable Agriculture Development Program, Nepal (SADP) Nepal http://sadnepal.org/internshiptraining	This training program in organic agriculture has a duration of 4, 7 or 15 (training of trainers) days. SADP also offers a 6-week internship program in organic gardening including seed saving, and community living in its Govardhan Organic Agriculture Resource Center (GOARC) and other farms. The internship will be a combination of organic gardening techniques such as composting, and appropriate technology. Interns will also get the opportunity to be involved in an appropriate technology project and learn about the way these can be applied to different contexts.	Training Program: Place: Organic Farm House, Kapan, Kathmandu Duration : between 4 and 15 days Internship: Duration: 6 weeks Fee US \$ 1000/- per person
Crop or skill specific training	HASERA http://organichasera.org	HASERA offers two types of training 1. A three day crop/skill specific training is focused on farmers who have already made a decision about what they want to focus on their farm. This is more a capacity development training in one or more selected commodities or technologies. Potential subjects to be covered in this training could be vegetable farming, fruit farming, seed production, nursery production, livestock management, grafting training and pruning, mushroom cultivation, etc. 2. A seven days Training on Organic Inspection and Certification providing full details regarding the concept, importance and methods of certification. This course is also suitable for those who wish to develop their career in organic inspection and certification. In every country in the world, there is a scarcity of capable organic inspectors.	Three-day training: Duration: 3 days Place: Patalekhhet, Nepal Cost : NRs 5600 Seven day training Duration: 7 days Place: Patalekhhet, Nepal Cost : NRs 17000
Processing and evaluation of chemical quality in spices	Inidan Institute of Spices Research (ICAR) http://spices.re.in/index.php?option=comcontent&view=article&id=56&Itemid=48	This course focuses on processing and evaluating of chemical quality in the spices, integrated pest and disease management in nurseries, Insect pest management, Nematode management, Mass rearing of coccinellid predators of scale insects, Biological control of diseases, Techniques on Phytophthora research, Integrated nutrient management. This training is offered for the following spices: black pepper, cardamom, ginger, turmeric, clove, cinnamon, nutmeg, allspice, vanilla and paprika.	Cost and duration might vary as per the training courses this organization provides. Place: Kerala, India
